Patient Information Management System (PIMS)
V. 5.3 Installation Guide
August 1993

PIMS Installation

List Manager Installation

PIMS Introduction

PIMS v5.3 sends out the Order Parameters for Registration and Scheduling set to NULL. Before installing PIMS v5.3, the values in the ORDER PARAMETERS file (#100.99), PACKAGE PARAMETERS field multiple (#5), ON field (#1) should be reviewed and saved. After the installation is completed, the parameters should be restored to the correct values.

It is recommended that the inits are accomplished in the following order.

VALMINIT	List Manager
DPTINIT	PATIENT file
DGINIT	Registration/ADT/PTF/IRT/Bene Travel
SDINIT	Scheduling

PIMS Package Integration

1. The following package versions (or higher) MUST be installed PRIOR to loading this version of PIMS.

DRG   v9.0
Generic Code Sheet   v1.5
Kernel   v7.0
VA FileMan   v19.0
Order Entry   v1.96
Health Level Seven   v1.5
Integrated Billing   v1.5
Co-Pay Exemption Patch   IB*1.5*9, DG*5.2*22, SD*5.2*9, and
PRCA*3.7*8

2. As part of the DGINIT post-init, the following routines will be installed when appropriate.

Routine	Package	Patch #
IBACKIN	Integrated Billing	IB*1.5*14
IBECEA3	Integrated Billing	IB*1.5*14
IBCNSP2	Integrated Billing	IB*1.5*14
IBCNSC	Integrated Billing	IB*1.5*14
IBOVOP1	Integrated Billing	IB*1.5*14
DGCRNS	Integrated Billing	IB*1.5*14
DVBHS1	HINQ	DVB*4*11
DVBHS2	HINQ	DVB*4*11
DVBHS5	HINQ	DVB*4*11
DVBHS6	HINQ	DVB*4*11

These routines contain modifications necessary to run with PIMS v5.3. If a routine has already been installed via the patch, it will not be loaded as part of the install.

3. The VALMINIT inits will install the version of the XQOR* routines that were distributed as part of Order Entry v2.5. If Order Entry v2.5 has already been installed, the post-init process will not load the XQOR* routines.

4. Note: The IB, DVB, and XQOR* routines mentioned above must be moved to all systems after the install is completed.

5. Also included in this release are a number of cross-references on fields in the PATIENT file (#2) needed by the Income Verification Match (IVM) package. However, you do **not** need to have IVM installed to install PIMS v5.3.

6. Event Driven Reporting (EDR) v1.5 was recently released in the EDR namespace. This software is now part of PIMS v5.3 in the VAFED namespace. Along with the old functionality in EDR v1.5, there is new functionality to capture outpatient events. A protocol is placed on the PIMS outpatient event driver which will collect all outpatient events. This information will then be bundled into an Health Level Seven (HL7) message and sent to the Central System.

PIMS Installation

<u>Step</u>   **<u>Description</u>**

1   Transmit Closed/Released PTF records.

       PTF edit checks have been changed and enhanced as part of PIMS
       v5.3. As a result, a PTF record closed under v5.2 may not transmit
       after v5.3 is installed. (Before a PTF record is transmitted, it is
       processed through the edit checker one additional time.)

       If the record is not transmitted and the edit checker does find a
       problem, the PTF record will be reopened. It will need to be closed and
       released again under the new edit checks of v5.3.

       The PTF Transmission option of the PTF Menu should be used to
       transmit PTF records. Contact your MAS ADPAC.

2   Get users off system(s).

3   Backup system(s).

4   Disable routine mapping (DSM). Disable journalling.

       There is one new global, ^SCE. The ^SCE global contains the
       OUTPATIENT ENCOUNTER file (#409.68). This global MUST be
       placed with the appropriate protection assigned to it before running
       the SDINIT inits. If possible, the ^SCE global should be placed on the
       same system where most appointments are made.

       Note: For MSM systems, SET ^SCE="" on the desired system and
       then use %GCH to set proper protection on the new global.

5   Sign into UCI where package is to be loaded.
       (Use 28k partition for MSM)

6   Review queued jobs to avoid possible delays or conflicts.

7   Sites who wish to delete PIMS routines prior to loading should do so now. The PIMS namespaces are DPT, DG, SD, and VA.

    IMPORTANT: Do not delete the following routines.
    PRCA* routines distributed with prior versions of MAS.
    DGCR* routines used for Integrated Billing.
    DGYE* routines required for External Peer Review.
    DGYP* routines for PIMS v5.3 Pre-Packet.
    DGYA* routines used for CPT update.
    VAQ* routines used by Patient Data Exchange - PDX.
    VAMP* routines used by Minimal Patient Dataset - MPD.
    A1B2* routines used for ODS package.

    Load PIMS v5.3 tape.
    (See PIMS Routine List Section for distributed routine list.)

8   Verify that DUZ, DT, DTIME, and U are defined and DUZ(0)="@".
    DUZ variable must be defined as an active user number and DUZ(0) variable must equal "@" in order to initialize.

9   Please answer all initialization questions carefully.

    We strongly recommend you say NO to all "Want my data merged with yours?" and "Want my data to overwrite yours?" questions during the DPTINIT, DGINIT, and SDINIT processes. These files are only sent with data for those sites installing in a virgin account. Time estimates are based on our recommendation that NO be answered to all of these questions. We also recommend you slave print the initialization processes. Data that is printed out during the post-inits should be reviewed.

10 D ^VALMINIT - List Manager
    (See List Manager Installation Dialogues Section.)

11 D ^DPTINIT - Patient File Module
    Please answer all questions carefully. Answer NO to all "Want my data merged with yours?" questions. Follow PIMS Installation Dialogues Section, #1 for DPTINIT responses.

12 D ^DGINIT - Registration/ADT/IRT/PTF/BT Modules
    Answer NO to all "Want my data merged with yours?" and "Want my data to overwrite yours?" questions. Follow PIMS Installation Dialogues Section, #2, for DGINIT responses.

13   D ^SDINIT - Scheduling Module
      Answer NO to all "Want my data merged with yours?" and "Want my
      data to overwrite yours?" questions.

      The ^SCE global MUST be placed with the appropriate protection
      before the inits can be run.

      Follow PIMS Installation Dialogues Section, #3, for SDINIT responses.

14   Delete appropriate routines such as DPTIN*, DGINI*, SDINI*,
      DGON* and SDON*. However, do NOT delete DPTINITY, DGINITY,
      and SDINITY. In addition, you may use DEL^DGVPT1 to delete all
      routines that are obsolete with this release.

15   Move PIMS routines to all systems.

16   Move Other Packages' Routines
      Move the IB, DVB, and XQOR* routines mentioned in the PIMS
      Package Integration Section of this install guide to all CPUs.

17   Recompile all templates and file cross-references on all CPUs using
      the same routine size. These routines can be moved to other systems
      by tape or other sequential medium.

      D ALL^DGUTL1 for PIMS templates and file cross-references.

18   Rebuild Map Set.
      We recommend the following PIMS routines be mapped.

DG10*	DGINP	DGINPW	DGLOCK*	DGMTR
DGMTA*	DGMTDD*	DGMTE*	DGMTP*	DGMTSC*
DGMTU*	DGMTX*	DGPMDD	DGPMDD1	DGPMDD2
DGPMDDCN	DGPMLOS	DGPMV*	DGPTF	DGPTF1
DGPTF2	DGPTF4*	DGPTFD	DGPTFJ	DGPTFTR
DGPTICD	DGPTR*	DGPTSU*	DGPTTS*	DGREG*
DGRP*	DGSEC	DGUTL	DPTDUP	DPTLK*
SDDIV	SDROUT*	VADPT*	DGPTX*	SDM*
DGPMX*	DGPMBS*	DGPMGL*	SDACS*	SDBT*
SDM1T*	SDX*	DGJX*	DGRPDD1	SDAM*
SDUL*	SDCO*	SDVSIT*	DGMTCOR	DGMTCOU*
VAFEDCAP	VAFEDG			

      The following routines are obsolete with PIMS v5.3 and were previously
      recommended for mapping: none for this release. For a complete list of
      obsolete routines, please see the PIMS Release Notes.

19   Bring systems back on line.

20   (Optional) Running the Build Primary Menu Trees option on the Menu
      Management Menu after the install may improve system performance
      during the first day of operation.

21   D EN^DGV53PTS to convert the OPTION/PROTOCOL USED field
      (#3) of the DATE/TIME RECORD ACCESSED multiple (#50) of the
      DG SECURITY LOG file (#38.1).

      This field previously pointed to the OPTION file. However, if a
      restricted patient record was accessed using a protocol, the protocol
      used was not recorded. The field has been changed to free-text. This
      conversion will change all the pointers to option's MENU TEXT. At
      the end of the process, a MailMan message will be sent to the user
      indicating that the conversion has completed.

22   Please see the following chart for package initialization time estimates
      for the installation times of PIMS v5.3 at our test sites.

	MSM	**VAX**
VALMINIT	2 min.	3 min.
DPTINIT	3 min.	6 min.
DGINIT	5 hours	6 hours
SDINIT	8 min.	6 min.

PIMS Installation Dialogues

1. DPTINIT Sample

```
>D ^DPTINIT

This version (#5.3) of 'DPTINIT' was created on 08-JUN-1993
         (at ALBANY ISC VAX DEVELOPMENT, by VA FileMan V.19.0)

I HAVE TO RUN AN ENVIRONMENT CHECK ROUTINE.
I AM GOING TO SET UP THE FOLLOWING FILES:

    2          PATIENT
Note:  You already have the 'PATIENT' File.

    5          STATE  (including data)
Note:  You already have the 'STATE' File.
Want my data merged with yours? NO

    48         MAS RELEASE NOTES  (including data)
Note:  You already have the 'MAS RELEASE NOTES' File.
I will OVERWRITE your data with mine.

    48.5       MAS MODULE  (including data)
Note:  You already have the 'MAS MODULE' File.
I will OVERWRITE your data with mine.

    391        TYPE OF PATIENT  (including data)
Note:  You already have the 'TYPE OF PATIENT' File.
Want my data merged with yours? NO

SHALL I WRITE OVER FILE SECURITY CODES? NO//   (NO)
NOTE: This package also contains SORT TEMPLATES
      SHALL I WRITE OVER EXISTING SORT TEMPLATES OF THE SAME NAME? YES//
(YES)
NOTE: This package also contains INPUT TEMPLATES
      SHALL I WRITE OVER EXISTING INPUT TEMPLATES OF THE SAME NAME?
YES//   (YES)
NOTE: This package also contains PRINT TEMPLATES
      SHALL I WRITE OVER EXISTING PRINT TEMPLATES OF THE SAME NAME?
YES//   (YES)
NOTE: This package also contains SECURITY KEYS
      SHALL I WRITE OVER EXISTING SECURITY KEYS OF THE SAME NAME? YES//
(YES)

ARE YOU SURE EVERYTHING'S OK? NO// Y  (YES)

***ALL IRT PARAMETERS ARE UPDATED!
_____
I AM GOING TO SET UP THE FOLLOWING FILES:

   8         ELIGIBILITY CODE  (including data)
Note:  You already have the 'ELIGIBILITY CODE' File.
Want my data merged with yours? NO

   8.1       MAS ELIGIBILITY CODE  (including data)
Note:  You already have the 'MAS ELIGIBILITY CODE' File.
I will OVERWRITE your data with mine.

   8.2       IDENTIFICATION FORMAT  (including data)
Note:  You already have the 'IDENTIFICATION FORMAT' File.
I will MERGE your data with mine.

   10        RACE  (including data)
Note:  You already have the 'RACE' File.
Want my data merged with yours? NO

   11        MARITAL STATUS  (including data)
Note:  You already have the 'MARITAL STATUS' File.
Want my data merged with yours? NO

   13        RELIGION  (including data)
Note:  You already have the 'RELIGION' File.
Want my data merged with yours? NO

   21        PERIOD OF SERVICE  (including data)
Note:  You already have the 'PERIOD OF SERVICE' File.
Want my data merged with yours? NO

   22        POW PERIOD  (including data)
Note:  You already have the 'POW PERIOD' File.
Want my data to overwrite yours? NO

   23        BRANCH OF SERVICE  (including data)
Note:  You already have the 'BRANCH OF SERVICE' File.
Want my data merged with yours? NO
```

25   TYPE OF DISCHARGE   (including data)
Note: You already have the 'TYPE OF DISCHARGE' File.
Want my data merged with yours? NO

     30   DISPOSITION LATE REASON   (including data)
Note: You already have the 'DISPOSITION LATE REASON' File.
Want my data to overwrite yours? NO

     35   OTHER FEDERAL AGENCY   (including data)
Note: You already have the 'OTHER FEDERAL AGENCY' File.
Want my data merged with yours? NO

     36   INSURANCE COMPANY
Note: You already have the 'INSURANCE COMPANY' File.

     37   DISPOSITION   (including data)
Note: You already have the 'DISPOSITION' File.
I will OVERWRITE your data with mine.

     38.1   DG SECURITY LOG
Note: You already have the 'DG SECURITY LOG' File.

     38.5   INCONSISTENT DATA
Note: You already have the 'INCONSISTENT DATA' File.

     38.6   INCONSISTENT DATA ELEMENTS   (including data)
Note: You already have the 'INCONSISTENT DATA ELEMENTS' File.
I will OVERWRITE your data with mine.

     39.1   EMBOSSED CARD TYPE   (including data)
Note: You already have the 'EMBOSSED CARD TYPE' File.
Want my data merged with yours? NO

     39.2   EMBOSSING DATA   (including data)
Note: You already have the 'EMBOSSING DATA' File.
Want my data merged with yours? NO

     39.3   EMBOSSER EQUIPMENT FILE
Note: You already have the 'EMBOSSER EQUIPMENT FILE' File.

     40.8   MEDICAL CENTER DIVISION
Note: You already have the 'MEDICAL CENTER DIVISION' File.

     41.1   SCHEDULED ADMISSION
Note: You already have the 'SCHEDULED ADMISSION' File.

     41.9   CENSUS
Note: You already have the 'CENSUS' File.

     42   WARD LOCATION
Note: You already have the 'WARD LOCATION' File.

     42.4   SPECIALTY   (including data)
Note: You already have the 'SPECIALTY' File.
Want my data merged with yours? NO

     42.5   WAIT LIST
Note: You already have the 'WAIT LIST' File.

```
   42.55     PRIORITY GROUPING  (including data)
Note:  You already have the 'PRIORITY GROUPING' File.
Want my data to overwrite yours? NO

   42.6      AMIS 334-341
Note:  You already have the 'AMIS 334-341' File.

   42.7      AMIS 345&346
Note:  You already have the 'AMIS 345&346' File.

   43        MAS PARAMETERS
Note:  You already have the 'MAS PARAMETERS' File.

   43.1      MAS EVENT RATES
Note:  You already have the 'MAS EVENT RATES' File.

   43.11     MAS AWARD  (including data)
Note:  You already have the 'MAS AWARD' File.
Want my data to overwrite yours? NO

   43.4      VA ADMITTING REGULATION  (including data)
Note:  You already have the 'VA ADMITTING REGULATION' File.
Want my data to overwrite yours? NO

   43.5      G&L CORRECTIONS
Note:  You already have the 'G&L CORRECTIONS' File.

   43.61     G&L TYPE OF CHANGE  (including data)
I will OVERWRITE your data with mine.

   43.7      ADT TEMPLATE  (including data)
Note:  You already have the 'ADT TEMPLATE' File.
Want my data to overwrite yours? NO

   45        PTF
Note:  You already have the 'PTF' File.

   45.1      SOURCE OF ADMISSION  (including data)
Note:  You already have the 'SOURCE OF ADMISSION' File.
I will OVERWRITE your data with mine.

   45.2      PTF TRANSFERRING FACILITY
Note:  You already have the 'PTF TRANSFERRING FACILITY' File.

   45.3      SURGICAL SPECIALTY  (including data)
Note:  You already have the 'SURGICAL SPECIALTY' File.
Want my data merged with yours? NO

   45.4      PTF DIALYSIS TYPE  (including data)
Note:  You already have the 'PTF DIALYSIS TYPE' File.
Want my data merged with yours? NO

   45.5      PTF MESSAGE
Note:  You already have the 'PTF MESSAGE' File.

   45.6      PLACE OF DISPOSITION  (including data)
Note:  You already have the 'PLACE OF DISPOSITION' File.
Want my data merged with yours? NO
```

```
   45.61     PTF ABUSED SUBSTANCE   (including data)
Note:  You already have the 'PTF ABUSED SUBSTANCE' File.
I will OVERWRITE your data with mine.

   45.62     PTF ARCHIVE/PURGE HISTORY FILE

   45.64     PTF AUSTIN ERROR CODES   (including data)
I will OVERWRITE your data with mine.

   45.7      FACILITY TREATING SPECIALTY
Note:  You already have the 'FACILITY TREATING SPECIALTY' File.

   45.81     STATION TYPE   (including data)
Note:  You already have the 'STATION TYPE' File.
Want my data merged with yours? NO

   45.82     CATEGORY OF BENEFICIARY   (including data)
Note:  You already have the 'CATEGORY OF BENEFICIARY' File.
Want my data merged with yours? NO

   45.83     PTF RELEASE
Note:  You already have the 'PTF RELEASE' File.

   45.84     PTF CLOSE OUT
Note:  You already have the 'PTF CLOSE OUT' File.

   45.85     CENSUS WORKFILE
Note:  You already have the 'CENSUS WORKFILE' File.

   45.86     PTF CENSUS DATE
Note:  You already have the 'PTF CENSUS DATE' File.

   45.87     PTF TRANSACTION REQUEST LOG
Note:  You already have the 'PTF TRANSACTION REQUEST LOG' File.

   45.88     PTF EXPANDED CODE CATEGORY   (including data)
Note:  You already have the 'PTF EXPANDED CODE CATEGORY' File.
I will OVERWRITE your data with mine.

   45.89     PTF EXPANDED CODE   (including data)
Note:  You already have the 'PTF EXPANDED CODE' File.
I will OVERWRITE your data with mine.

   45.9      PAF
Note:  You already have the 'PAF' File.

   45.91     RUG-II
Note:  You already have the 'RUG-II' File.

   47        MAS FORMS AND SCREENS   (including data)
Note:  You already have the 'MAS FORMS AND SCREENS' File.
I will OVERWRITE your data with mine.

   81        CPT
Note:  You already have the 'CPT' File.

   81.1      CPT CATEGORY   (including data)
Note:  You already have the 'CPT CATEGORY' File.
Want my data to overwrite yours? NO
```

```
   81.2      CPT COPYRIGHT  (including data)
Note:  You already have the 'CPT COPYRIGHT' File.
I will OVERWRITE your data with mine.

   389.9     STATION NUMBER (TIME SENSITIVE)
Note:  You already have the 'STATION NUMBER (TIME SENSITIVE)' File.

   391.1     AMIS SEGMENT
Note:  You already have the 'AMIS SEGMENT' File.

   392       BENEFICIARY TRAVEL CLAIM
Note:  You already have the 'BENEFICIARY TRAVEL CLAIM' File.

   392.1     BENEFICIARY TRAVEL DISTANCE
Note:  You already have the 'BENEFICIARY TRAVEL DISTANCE ' File.

   392.2     BENEFICIARY TRAVEL CERTIFICATION
Note:  You already have the 'BENEFICIARY TRAVEL CERTIFICATION' File.

   392.3     BENEFICIARY TRAVEL ACCOUNT  (including data)
Note:  You already have the 'BENEFICIARY TRAVEL ACCOUNT' File.
Want my data to overwrite yours? NO

   392.4     BENEFICIARY TRAVEL MODE OF TRANSPORTATION
Note:  You already have the 'BENEFICIARY TRAVEL MODE OF TRANSPORTATION'
File.

   393       INCOMPLETE RECORDS
Note:  You already have the 'INCOMPLETE RECORDS' File.

   393.1     MAS SERVICE  (including data)
Note:  You already have the 'MAS SERVICE' File.
I will OVERWRITE your data with mine.

   391.51    PIMS EDR EVENT

   393.2     IRT STATUS  (including data)
Note:  You already have the 'IRT STATUS' File.
I will OVERWRITE your data with mine.

   393.3     IRT TYPE OF DEFICIENCY  (including data)
Note:  You already have the 'IRT TYPE OF DEFICIENCY' File.
I will MERGE your data with mine.

   393.41    TYPE OF CATEGORY  (including data)
I will OVERWRITE your data with mine.

   405       PATIENT MOVEMENT
Note:  You already have the 'PATIENT MOVEMENT' File.

   405.1     FACILITY MOVEMENT TYPE  (including data)
Note:  You already have the 'FACILITY MOVEMENT TYPE' File.
Want my data merged with yours? NO

   405.2     MAS MOVEMENT TYPE  (including data)
Note:  You already have the 'MAS MOVEMENT TYPE' File.
I will OVERWRITE your data with mine.
```

```
    405.3     MAS MOVEMENT TRANSACTION TYPE  (including data)
Note:  You already have the 'MAS MOVEMENT TRANSACTION TYPE' File.
I will OVERWRITE your data with mine.

    405.4     ROOM-BED
Note:  You already have the 'ROOM-BED' File.

    405.5     MAS OUT-OF-SERVICE  (including data)
Note:  You already have the 'MAS OUT-OF-SERVICE' File.
I will OVERWRITE your data with mine.

    405.6     ROOM-BED DESCRIPTION
Note:  You already have the 'ROOM-BED DESCRIPTION' File.

    406.41    LODGING REASON  (including data)
Note:  You already have the 'LODGING REASON' File.
I will MERGE your data with mine.

    407.7     TRANSMISSION ROUTERS  (including data)
Note:  You already have the 'TRANSMISSION ROUTERS' File.
Want my data merged with yours? NO

    408       DISCRETIONARY WORKLOAD
Note:  You already have the 'DISCRETIONARY WORKLOAD' File.

    408.11    RELATIONSHIP  (including data)
Note:  You already have the 'RELATIONSHIP' File.
I will OVERWRITE your data with mine.

    408.12    PATIENT RELATION
Note:  You already have the 'PATIENT RELATION' File.

    408.13    INCOME PERSON
Note:  You already have the 'INCOME PERSON' File.

    408.21    INDIVIDUAL ANNUAL INCOME
Note:  You already have the 'INDIVIDUAL ANNUAL INCOME' File.

    408.22    INCOME RELATION
Note:  You already have the 'INCOME RELATION' File.

    408.31    ANNUAL MEANS TEST
Note:  You already have the 'ANNUAL MEANS TEST' File.

    408.32    MEANS TEST STATUS  (including data)
Note:  You already have the 'MEANS TEST STATUS' File.
I will OVERWRITE your data with mine.

    408.33    TYPE OF TEST  (including data)
Note:  You already have the 'TYPE OF TEST' File.
I will OVERWRITE your data with mine.

    408.41    MEANS TEST CHANGES
Note:  You already have the 'MEANS TEST CHANGES' File.

    408.42    MEANS TEST CHANGES TYPE  (including data)
Note:  You already have the 'MEANS TEST CHANGES TYPE' File.
I will OVERWRITE your data with mine.

'MOVEMENT EVENTS v 5.0' REMOVED from OPTION file...

    DGPM TREATING SPECIALTY EVENT
    -----------------------------
NOT ATTACHED TO ANY MENUS AS AN ITEM...NOTHING TO REPOINT OR DELETE!
'TREATING SPECIALTY EVENT' REMOVED from OPTION file...

    DGYP BT DIST CHECK
    ------------------
REMOVED from 'DGYP ADPAC MENU' menu...
'Incomplete BT Distance Data' REMOVED from OPTION file...

    DGYP GL/BSR/TSR INPT INFO
    -------------------------
REMOVED from 'DGP ADPAC MENU' menu...
'Treating Specialty Inpatient Information Printouts' REMOVED from OPTION
file...

>>> Deleting/repointing 'VA' options in OPTION file as ne cessary.

    VA STATION NUMBER MAINT.
    ------------------------
NOT ATTACHED TO ANY MENUS AS AN ITEM...NOTHING TO REPOINT OR DELETE!
      'Station Number (time sensitive) Enter/Edit' REMOVED from OPTION
file...

>>> Deleting/repointing 'EDR' options in OPTION  file as necessary.

    EDR PROCESS EVENTS
    ------------------
NOT ATTACHED TO ANY MENUS AS AN ITEM...NOTHING TO REPOINT OR DELETE!
'Process MAS Events for EDR' REMOVED from OPTION file...

>>> Initialization of Version 5.3 of DG Complete.
```

After you've been up and running for about a week or so, we would
appreciate it if you would utilize the Transmit/Generate Release Comments
option of the PIMS package to provide us with your (and your users) initial
impression of this release. Thank you.

3. SDINIT Sample

```
>D ^SDINIT

This version (#5.3) of 'SDINIT' was created on 08-JUN-1993
        (at ALBANY ISC VAX DEVELOPMENT, by VA FileMan V.19.0)

I HAVE TO RUN AN ENVIRONMENT CHECK ROUTINE.
I AM GOING TO SET UP THE FOLLOWING FILES:

  31       DISABILITY CONDITION
Note:  You already have the 'DISABILITY CONDITION' File.

  40.1     OPC
Note:  You already have the 'OPC' File.

  40.15    OPC ERRORS
Note:  You already have the 'OPC ERRORS' File.

  40.7     CLINIC STOP  (including data)
Note:  You already have the 'CLINIC STOP' File.
Want my data merged with yours? NO

  40.9     LOCATION TYPE  (including data)
Note:  You already have the 'LOCATION TYPE' File.
Want my data to overwrite yours? NO

  44       HOSPITAL LOCATION
Note:  You already have the 'HOSPITAL LOCATION' File.

  407.5    LETTER
Note:  You already have the 'LETTER' File.

  407.6    LETTER TYPE  (including data)
Note:  You already have the 'LETTER TYPE' File.
Want my data to overwrite yours? NO

  409.1    APPOINTMENT TYPE  (including data)
Note:  You already have the 'APPOINTMENT TYPE' File.
Want my data to overwrite yours? NO

  409.2    CANCELLATION REASONS  (including data)
Note:  You already have the 'CANCELLATION REASONS' File.
Want my data to overwrite yours? NO

  409.3    AMBULATORY PROCEDURE GROUPS  (including data)
Note:  You already have the 'AMBULATORY PROCEDURE GROUPS' File.
Want my data merged with yours? NO

  409.41   OUTPATIENT CLASSIFICATION TYPE  (including data)
I will OVERWRITE your data with mine.

  409.42   OUTPATIENT CLASSIFICATION

  409.43   OUTPATIENT DIAGNOSIS

  409.44   OUTPATIENT PROVIDER
```

```
   409.45    OUTPATIENT CLASSIFICATION STOP CODE EXCEPTION  (including
data)

   409.5     SCHEDULING VISITS
Note:  You already have the 'SCHEDULING VISITS ' File.

   409.62    APPOINTMENT GROUP  (including data)
Note:  You already have the 'APPOINTMENT GROUP' File.
I will OVERWRITE your data with mine.

   409.63    APPOINTMENT STATUS  (including data)
Note:  You already have the 'APPOINTMENT STATUS' File.
I will OVERWRITE your data with mine.

   409.65    APPOINTMENT STATUS UPDATE LOG
Note:  You already have the 'APPOINTMENT STATUS UPDATE LOG' File.

   409.66    APPOINTMENT TRANSACTION TYPE  (including data)
Note:  You already have the 'APPOINTMENT TRANSACTION TYPE' File.
I will OVERWRITE your data with mine.

   409.68    OUTPATIENT ENCOUNTER

   409.71    AMBULATORY PROCEDURE  (including data)
Note:  You already have the 'AMBULATORY PROCEDURE' File.
Want my data to overwrite yours? NO

   409.72    AMBULATORY PROCEDURE TIME SENSITIVE DATA  (including data)
Note:  You already have the 'AMBULATORY PROCEDURE TIME SENSITIVE DATA'
File.
Want my data merged with yours? NO

   409.81    RAM GROUP  (including data)
Note:  You already have the 'RAM GROUP' File.
Want my data to overwrite yours? NO

   409.82    RAM REIMBURSEMENT
Note:  You already have the 'RAM REIMBURSEMENT' File.

SHALL I WRITE OVER FILE SECURITY CODES? NO// N  (NO)
NOTE: This package also contains SORT TEMPLATES
     SHALL I WRITE OVER EXISTING SORT TEMPLATES OF THE SAME NAME? YES//
(YES)
NOTE: This package also contains INPUT TEMPLATES
     SHALL I WRITE OVER EXISTING INPUT TEMPLATES OF THE SAME NAME?
YES//   (YES)
NOTE: This package also contains PRINT TEMPLATES
     SHALL I WRITE OVER EXISTING PRINT TEMPLATES OF THE SAME NAME?
YES//   (YES)
NOTE: This package also contains FUNCTIONS
     SHALL I WRITE OVER EXISTING FUNCTIONS OF THE SAME NAME? YES//
(YES)
NOTE: This package also contains SECURITY KEYS
     SHALL I WRITE OVER EXISTING SECURITY KEYS OF THE SAME NAME? YES//
(YES)
NOTE: This package also contains OPTIONS
     SHALL I WRITE OVER EXISTING OPTIONS OF THE SAME NAME? YES// (YES)

ARE YOU SURE EVERYTHING'S OK? NO// Y  (YES)
```

```

List Manager Introduction

The List Manager was originally released as part of MAS v5.2. It was distributed in the SDUL namespace. However, the data dictionaries, templates, and protocols were bundled in the Scheduling package inits as part of SDINI* routines.

Since the initial distribution, other packages, outside of PIMS, have showed interest in using the utility. As a result, List Manager has been separated from the Scheduling package and placed in the VALM namespace as its own package. Numerous enhancements have been made in this VALM version that will not be included in the SDUL version. By making List Manager a stand-alone package, it will be easier to enhance and distribute.

The SDUL will still be distributed with the Scheduling package of PIMS for backwards compatibility. Other packages have already distributed software that utilizes the SDUL version. The SDUL will eventually be phased out completely as these other packages convert to VALM. During this interim phase, however, the functionality of the SDUL version will remain fixed.

List Manager Package Integration

The following package versions (or higher) MUST be installed PRIOR to loading this version of List Manager.

Kernel	v7.0
VA FileMan	v19.0
Order Entry	v1.96

The VALMINIT inits will install the version of the XQOR* routines that were distributed as part of Order Entry v2.5. If Order Entry v2.5 has already been installed, the post-init process will not load the XQOR* routines. (Please note that the version numbers on the XQOR* routines will be 6.7 even though they were released with version 2.5 of Order Entry.)

Finally, the XQOR* routines distributed as part of List Manager contain changes introduced in patches OR*2.5*14 and OR*2.5*15. These patches affect routines XQOR1 and XQORO. (See the XQOR Patches section of this manual for a copy of these patches.)

List Manager Installation

<u>Step</u> **<u>Description</u>**

1   Get users off system(s).

2   Backup system(s).

3   Disable routine mapping, if applicable. Disable journalling.

4   Sign into UCI where package is to be loaded.
          (Use 28k partition for MSM)

5   Verify that DUZ, DT, DTIME and U are defined and DUZ(0)="@".
          DUZ variable must be defined as an active user number and DUZ(0)
          variable must equal "@" in order to initialize.

6   D ^VALMINIT -- List Manager
          Follow List Manager Installation Dialogues Section for List Manager
          install dialogues.

7   Rebuild map set. We recommend the following MAS routines be
          mapped.

          VALM   VALM0   VALM00   VALM1   VALM10   VALM11   VALM2
          VALM4   VALM40

8   Bring systems back on line.

9   Please see the following chart for List Manager initialization time
          estimates for the installation times at our test sites.

	MSM	**VAX**
VALMINIT	2 min.	3 min.

10   In order to effectively use the List Manager, the following terminal
       type attributes should be defined.

Attribute	Value for a VT-100 terminal
Form Feed:	#,$C(27,91,50,74,27,91,72)
XY CRT	W $C(27,91),DY+1,$C(59),DX+1,$C(72)
Erase to End of Page	$C(27,91,74)
Insert Line	$C(27,"[1L")
Underline On	$C(27,91,52,109)
Underline Off	$C(27,91,109)
High Intensity (Bold)	$C(27,91,49,109)
Normal Intensity (Reset)	$C(27,91,109)
Save Cursor	$C(27,55)
Restore Cursor	$C(27,56)
Set Top/Bottom Margins	$C(27,*91)_(+IOTM)_$C(59)_(+IOBM)_$C(114)
SGR Attributes Off	$C(27,91,109)

11   Move XQOR* and VALMX* Routines.

       If the XQOR* routines were loaded as part of the post-init process, you
       will need to move XQOR* to all systems.

       The VALMX* routines contain compiled print and input templates.
       Currently, there is only one print template being compiled and no
       input templates.

List Manager Installation Dialogues

1. If the site has Order Entry v2.5 installed, the List Manager install will be similar to the following.

```
>D ^VALMINIT

This version (#1) of 'VALMINIT' was created on 08-JUN-1993
         (at ALBANY ISC VAX DEVELOPMENT, by VA FileMan V.19.0)

I HAVE TO RUN AN ENVIRONMENT CHECK ROUTINE.

>>> Checking the version of XQOR*...ok.

I AM GOING TO SET UP THE FOLLOWING FILES:

    409.61    LIST TEMPLATE
Note:  You already have the 'LIST TEMPLATE' File.

SHALL I WRITE OVER FILE SECURITY CODES? NO//   (NO)
NOTE: This package also contains INPUT TEMPLATES
      SHALL I WRITE OVER EXISTING INPUT  TEMPLATES OF THE SAME NAME?
YES//   (YES)
NOTE: This package also contains PRINT TEMPLATES
      SHALL I WRITE OVER EXISTING PRINT TEMPLATES OF THE SAME NAME?
YES//   (YES)
NOTE: This package also contains OPTIONS
      SHALL I WRITE OVER EXISTING OPTIONS  OF THE SAME NAME? YES//
(YES)

ARE YOU SURE EVERYTHING'S OK? NO// Y  (YES)

...SORRY, LET ME PUT YOU ON 'HOLD' FOR A SECOND.................
'VALM DEMO APPLICATION' Option Filed..........

Compiling VALM LIST TEMPLATE print template of File
409.61......................
...........
'VALMXP' ROUTINE FILED
'VALMXP1' ROUTINE FILED....................
NO SECURITY-CODE PROTECTION HAS BEEN MADE

This version of 'VALMONIT' was created on 08-JUN-1993
         (at ALBANY ISC VAX DEVELOPMENT, by OE/RR V.2.5)

```

Subject: Incompatibility with Kernel 7.1

Category: ROUTINE

Description:
===========

INSTALLATION: This patch may be installed prior to loading Kernel 7.1. Users
need not be off the system when applying this patch; however, it should be
done during off-peak times since there is always a chance that someone might
be errored off the system because they were using an option that invoked the
routine being edited.

SPECIAL NOTE: Two of the four routines included in this patch are XQOR
namespaced. The XQOR* routines are a set of utilities for the Protocol file
(101) and are released as part of the Order Entry/Results Reporting (OR)
package. They were released with a version number of 6.7 and may become part
of the Kernel package at a later date. For the time being any patches to
XQOR namespaced routines will be released under the OE/RR package.

PREVIOUS PATCHES:
     The routine OR4 has previously been patched with OR*2.5*2 and OR*2.5*6

PROBLEM: There is an incompatibility between OERR 2.5 and Kernel 7.1. Since
the release of OERR 2.5, the code was changed in the Kernel 7.1 %ZOSV routine
for system capacity checking. A different variable than what was expected is
returned from the call to %ZOSV resulting in an undefined error.

This patch makes the changes needed to check for the variable XQXFLG.

Routine Information:

Subject: Backwards Incompatibility

Category: ROUTINE

Description:
===========

INSTALLATION:
     Users need not be off the system when applying this patch; however, it
should be done during off-peak time since there is always a chance that
someone might be errored off the system because they were using an option
that called the routine being edited.

SPECIAL NOTE: The XQOR* routines are a set of utilities for the Protocol
file (101) and are released as part of Order Entry/Results Reporting (OR)
package. They were released with a version number of 6.7 and may become part
of the kernel package at a later date. For the time being any patches to
XQOR namespaced routines will be released under the OE/RR package.

PREVIOUS PATCHES:
     The routine XQORO has previously been patched with OR*2.5*14

PROBLEM: Backwards incompatibility with OE/RR 1.96. The new release of PIMS
5.3 requires the new functionality provided in the XQOR version 6.7 routines
that were released with OE/RR version 2.5. Since PIMS 5.3 does not require
OE/RR 2.5 to be installed, they are exporting the XQOR routines with their
release to be loaded if OE/RR 2.5 is not present. It is then possible to
have version 6.7 of XQOR routines and version 1.96 of OE/RR routines. The
incompatibility occurs because the routine XQORO references the routine OR4
that does not exist in 1.96.

This patch corrects the incompatibility by calling an entry point in OR1.

Routine Information:
====================

Routine Name: XQORO

Description of Changes:

Line: EXIT+3
r OR4
w OR1

Line now looks like:
 D RSTR,AFT^OR1,RSTR K
^TMP("XQORS",$J,0,"CTXT","ADD"),^TMP("XQORS",$J,XQORS,"C"
